## Snitterfield Tennis Club

Snitterfield Tennis Club is a small club situated in the heart of Warwickshire and is located approx 4 miles from both Stratford upon Avon and Warwick.

The club is part of Snitterfield sports club and is represented in local tennis leagues. The club offer coaching for all age groups and abilities .

The club has 3 floodlit courts two of which had previously been surfaced with Playrite's Matchplay 2 ITF category 3 pace rated sand - dressed synthetic surface.

At the turn of the year, the club made a decision, due to the popularity and playing demand on the existing Matchplay 2 Courts to upgrade the remaining hard court to the same surface. The high performance hard wearing nature coupled with the low maintenance aspect of the surface, was key to the clubs decision to once again choose Matchplay 2.

Fosse Contracts Ltd, whom Playrite have worked with on numerous tennis projects over a number of years, were chosen as the contractor and the new Playrite Matchplay 2 surface was installed in April 2018 in a Two tone green colour scheme to compliment the other courts.

All three Matchplay 2 courts are floodlit and open for for use and team hire all year round.
