

Fulwood Tennis Club

Fulwood Tennis Club boast four hard courts and the only two grass courts in Sheffield.

With the addition of a single Matchplay 2 court completed in 2018, the club are now able to offer members and visitors the option to experience three different surfaces.

The Challenge

In November 2016 Fulwood Tennis Club made the decision to replace an existing single grass court with a new synthetic court. Whilst they initially set their sights on a tufted surface, the committee changed their mind once they saw Matchplay 2 at a local club.

The Result

During a recent visit to the club, we asked players and coaches for their opinion on the new Matchplay 2 surface. Everyone spoke highly of the new addition with the majority preferring Matchplay 2 to the club's grass and hard court surfaces.

Whilst they initially set their sights on a tufted surface, the committee changed their mind once they saw Matchplay 2 at a local club.
