

Case Study

Thistle Lawn Tennis Club

PadelTech have developed a new concept of Padel courts alongside partners RedSport Padel and Adidas. With 10 years in padel court construction, PadelTech have the knowledge to apply a personal approach to installing state of the art facilities in clubs or private residences. PadelTech been involved in building padel tennis courts all over the world, forming strong partnerships with companies that want to maintain the highest-standards in this growing industry.

Springlawn, based in Perth Scotland has managed to secure the specification for Playrite's Grandplay tufted sports surface for two new Padel courts at Thistle Lawn Tennis Club Edinburgh. PadelTech completed the groundworks and construction in conjunction with Doe Sports North.

Following the construction and installation of Playrite's Grandplay, Ken Smith Area Sales Manager for Playrite met with Paul Ross to take a close up look at the exciting new facility at Thistle Lawn Tennis Club and to take a few minutes out to try this enjoyable racket sport.

Paul has had experiences of alternative court surfaces but insists the Playrite Grandplay is an excellent padel court surface due to the appearance and playability. Club players at Thistle LTC are delighted with the new construction of the two courts and look forward to a new competitive season.

PadelTech are keen to include Playrite Grandplay in future projects.
